NAD AL SHEBA

AMERICAN SCHOOL OF CREATIVE SCIENCE

The American School of Creative Science, Nad Al Sheba, is a K-9 NEASC accredited learning community that nurtures, cultivates, and fosters creative and critical thinking skills. At ASCS science is defined as the art of learning. The school offers an enriched, balanced, and broad American curriculum with an international perspective. ASCS follows the US Common Core State Standards for English and Math and Next Generation Science Standards for Science, while providing the MOE curriculum in Arabic, Islamic Studies, Social Studies, and Moral Education. ASCS is also renowned for its unique Quran memorization program.

At ASCS, course delivery methodology is based on world class renowned teaching strategies and best practices, with the aim to motivate students for tapping into and realizing their full potential, ensure the development of the "Whole Child", and build self-confidence and self-awareness, which in turn enables independent learning.

The teachers at ASCS Maliha use differentiated instruction to cater to individual needs of the students, communicate regularly with parents, provide a safe and secure environment for learning, and use the latest technology to incorporate 21st century skills. At ASCS, English and Arabic departments adopt a common approach and ensure that links are established between the different subjects.

We are fortunate to be able to draw on the two decades of educational knowledge and expertise from our sister Creative Science Schools in combining the very best of internationally renowned academic best practices.

- Inclusion room

Mrs. Sarah Hollis

Principal's Message

It is an honor on behalf of the entire learning community; students, staff, and parents, to welcome you to the American School of Creative Science (ASCS). I hope you get a sense of what makes ASCS an extraordinary school.

Located in Nad Al Sheba 3, we are a growing learning community that supports our students' intellectual, spiritual, emotional, and social growth. We aim to offer the very best of academic instruction that combines the US Curriculum with the Arabic, Islamic, and Social Studies for UAE. Our unique Qur'an program ensures our students develop a love for recitation and memorization. Our curriculum is delivered in an environment that places a strong emphasis on strong moral values, ethos, and cultural traditions, hence our motto: Excellence rooted in values.

We have a lot of fun at ASCS; it is a close-knit school community filled with a sense of joy and enthusiasm for learning, but we take seriously our responsibility to provide our students with the skills necessary to be engaged, global citizens. With a focus on preparing our students for university and future careers and their future roles in the outer world, we expect very high standards of work and behavior from our students.

We work to develop our students to be independent learners who take responsibility for their learning. Coupled with this, is the development of their sense of social responsibility with our students understanding their roles and duties both within and outside the school community, enabling them to become global citizens.

Of course, words cannot fully explain the breadth of opportunities, the depth of relationships, and the strength of the ASCS school community, so please come and visit us.

We look forward to welcoming you to the American School of Creative Science!

How to Apply

Admissions to the American School of Creative Science will be conducted on a first come first served basis, in a fair manner. Admission is also based on entrance tests for each grade level. Prospective students are also required to undertake Cognitive Ability Tests on a published date and time.

Admission procedures for new students

- Complete the application form at the school.
- Submit a copy of the student's passport, copy of each parent's Emirates ID and most recent school report, or to whom it may concern letter from the student's current school.
- Upon receipt of the application form, the student will be invited for an entrance exam and interview. Students of KG1 and KG2 will be invited to school with their parents for an interview.
- Students of Grades 1 to 9 will be invited for a computerized examination and interview.
- The Registration department, along with the Senior Leadership Team, will test and evaluate applications made throughout the year on a case by case basis. Admissions will be based upon availability in the grade level, school/term reports, and entrance/CAT4 Cognitive Ability Test results. All other registration and administrative requirements remain the same, as for other grade levels.

If your application is successful and your child is offered a place, you will be notified by phone or email and be invited to complete the rest of the admission formalities.
